“ N Is For ... ”

November SVSM Club Contest by Editor

Another Fun With Alphabet with of course, another twist. Since November is traditionally last month of meeting calendar year where Models/Model Talk are on agenda, we oft have some sort of notoriously odd or offbeat themed Club Contest.

Turkeys, TOWS, Tailfins and Twins, Tanksgiving, stuff like that. This year, Editor is sponsoring this mixing of myriad model concepts with a Notable letter in synch with month, it's vowel driven in a way but otherwise just his usual madness. See below:

**Right Now, this is Qualifying Model Entrant Node Mode:
STAY TUNED FOR UPDATES - MEANWHILE GET GOING**

(while may seem like a pretty limited set of model parameters, trust me, a veteran club contestant ought to spot neat camel sized loophole in listing to bust through the needle's eye. Just ask William F. or Greg P.)

N is for Naval or NASCAR or Natter or Nachtjager or Nashorn or Nakajima

N is for Neutrals or Next Generation or NENE *(the jet engine, its immediate derivatives. For this, merely look it up on Wikipedia for one source, learn of the aircraft that had this engine or its equivalents)*

N is for Nippon (anything Japanese) Pretty basic, think on it

N is for Northrop or North American (the seed that started this) or Nought (again, give it some thought)

N is for Nuclear (powered, or armed, or directly related to)
